Each air-conditioned two-bedroom suite contains two extra-long twin beds, with a shared bath containing a private toilet, private shower, sink and towel rack located between the bedrooms. Each bedroom contains a closet, storage area, two desks and a telephone. 14 floors.

If your team is assigned to Morrill Hall, please plan to group your team members in groups of two. In cases where there is an extra person, roll-away beds are available to increase room occupancy to three.

Team NY will share Morrill Hall with Massachusetts as our home for d2k.5. You can see the layout of Morrill Hall's rooms in the photo and info above - Morrill Hall has a cafeteria in the building and it has had some recent renovations. It is close to the pool and still considered in the Presidential Courtyard. I think team NY will love Morrill Hall!
